

**EUROAVIA  
NAPOLI**

*Build the wings of your future*

# OUR STORY

---

Founded more than **30 years ago** by a group of students from the **Aerospace Engineering** course at **Università di Napoli "Federico II"**, **EUROAVIA Napoli "Umberto Nobile"** was created with a clear objective: to establish a **direct and fruitful link between the academic world and industry in the sector**.

*+150 member every year*

*+10 events every year*

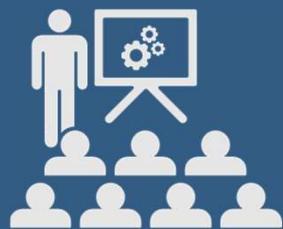

*International Network with +40 affiliated all over the Europe*

# EVENTS

## SEMINARY

## COMPANY VISITS

## WORKSHOP

## BATTESIMO DEL VOLO

## SOCIAL EVENTS

# SEMINARY

Our seminars are **themed events** in which **industry experts, business managers, university professors and researchers** share their knowledge and experience with an audience of attentive and motivated students.

The main objectives of our seminars are:

- **Exploring Technological Frontiers**
- **Orienting Students Towards the World of Work**

For a partner company, organising or participating in a seminar is a unique opportunity to present its business, position itself as a thought leader and identify the most brilliant and curious students.

## COMPANY VISIT

## WORKSHOP

## BATTESIMO DEL VOLO

## SOCIAL EVENTS

# COMPANY VISITS

Company visits allow our members to **go beyond the classroom** to see, touch and understand the challenges and complexities of the industrial world.

What a visit means for our students:

- **Learning in the field**
- **Market Awareness**
- **Professional Inspiration**

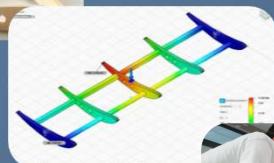

For the host company, opening its doors to EUROAVIA Naples is a strategic investment. It is the perfect opportunity to showcase itself as a dynamic and cutting-edge workplace, attract the best talent and build a solid and direct relationship with the next generation of engineers.

## WORKSHOP

## BATTESIMO DEL VOLO

## SOCIAL EVENTS

# WORKSHOP

Our workshops focus on:

- **Technical Skills Development**
- **Collaborative Problem Solving**
- **Practical Application**

For a company, proposing and sponsoring a workshop is the most effective way to assess the real skills of future engineers. It allows you to observe their approach to work, their creativity and their teamwork skills, identifying the most promising talents in a practical and informal context.

Workshops are our most interactive format. In these **practical sessions**, our students put themselves to the test, divided into teams, to solve **real engineering problems**, using specific software or assembling hardware components.

**BATTESIMO DEL VOLO**

**SOCIAL EVENTS**

# BATTESIMO DEL VOLO

The ‘Battesimo del Volo’ is more than just an event: it is the moment when our **future engineers experience first-hand** the forces and dynamics they study every day in books. In collaboration with local flight schools, we take our members aboard ultralight aircraft for their first real flying experience.

This activity represents:

- **Pure Passion**
- **Practical Understanding**
- **An Indelible Memory**

For a partner company, associating its name with the Flight Baptism means linking its brand to extremely positive values such as dreams, ambition, courage, and success. It is a high-impact marketing and employer branding operation that demonstrates a real investment in the passion of future generations.

# SOCIAL EVENTS

---

We regularly organise social events, drinks receptions and get-togethers to strengthen team spirit and encourage our members **to get to know each other.**

These events are essential for:

- **Developing soft skills**
- **Internal Networking**
- **Strengthening Team Spirit**

For a company, participating in or sponsoring one of our social events is an informal and privileged opportunity to get to know our talents outside the academic context. It is the ideal way to assess their interpersonal skills and present your company's culture in a relaxed and positive atmosphere.

# INTERNATIONAL NETWORK

---

EUROAVIA Napoli is part of an **international network** with other affiliated associations throughout **Europe**, which in turn organise events such as Workshops, Fly-Ins, Symposiums, International Competitions and Conferences in which all EUROAVIA members can participate.

# OUR PARTNERS

---

Our main partners are **AIDAA** and **Aeropolis**, with whom we collaborate in organising:

- **Seminars;**
- **Social events;**
- **Volunteering;**
